

# Teacher Lesson Plans For Eco Bean: Saves Water

W-2

**Objective:** To have students gain firsthand knowledge of the amount of water saved by Brushing the Eco Way.

**Subject Area(s):** Math, Science, Language Arts

**Procedure:**

- A. Place a basin in a sink to collect water.
- B. Have a volunteer brush their teeth in the conventional way.
- C. Measure the water in the basin.
- D. Repeat the teeth brushing using "**Brushing the Eco Way**" (Have the class sing this song to "London Bridge is Falling Down.")
- E. Compare the three ounces of water used with the Eco Way to the amount of water collected during the traditional way.
