

Teacher Lesson Plans For Eco Bean: Saves Water

W-3

Objective: To have students discover the amount of wasted water that is left over in a cup/bottle.

Subject Area(s): Science, Math, Language Arts

Procedure:

- A. Collect left over water in students' cups/bottles from snack/lunch.
- B. Measure the left over water and record the results on this worksheet (Do this activity over a three-day period).
- C. Pour the collected water on plants in the classroom.

Suggestion: Serve only water for the three-day period.

Enrichment: Brainstorm additional ways to use the collected water.
